🎓 Education

Bachelor's Degree, Anadolu University, Eskişehir (Remote)

September 2022 — Present

I am currently pursuing a Bachelor's degree in Management Information Systems at Anadolu University. The curriculum provides knowledge in various areas such as web technologies, server management, project management, systems analysis and design, and database programming. This diverse skill set allows me to have a holistic approach to IT solutions, blending both technical and business aspects.

Associate's Degree, Ankara Yıldırım Beyazıt University, Ankara (On-site)

September 2019 — June 2021

At Ankara Yıldırım Beyazıt University, I received comprehensive training in web technologies, including Php, HTML, CSS, JavaScript, .NET, and more. The curriculum focused on modern web development practices, ensuring strong foundational knowledge in both front-end and back-end technologies.
